SOLUTIONS FOR COSMETIC AND BEAUTY PRODUCT DISTRIBUTORS

N'ware Technologies offers industry leading solutions that help distributors achieve the highest efficiency and productivity standards. We provide the tools to assist in making optimum use of existing resources.

Key Features of our ERP Solution:

Material Requirement Planning:

The system will recommend and automate PO creation based on minimum stock levels and demand forecast, taking lead time into account.

Bar coding and wireless scanners:

Increase warehouse productivity with system directed put away, picking, and cycle counting process, all on a hand-held device to speed up the process and eliminate errors.

Multiple warehouses and bin locations:

Locate your items to greatly accelerate the inbound and outbound flow of products.

Mobile Application:

Sales representatives can create orders while visiting clients and have full visibility of real-time inventory. Sales will be able to view specific pricing or use the product catalog to showcase items and get extra sales.

N'ware Technologies helps streamline processes to maximize productivity and profitability across your entire business.

- Manage customer and vendor relationships with full CRM capabilities
- Integrated e-commerce solutions and connection to web marketplaces such as Amazon® Marketplace®, Ebay™, Magento™ and more!
- Easy access to real time budgeting
